PROFESSIONAL SUMMARY

Technical Project Manager and a Certified Scrum Master (**CSM**) professional with 5 years' experience in project management and 12 years in IT. Experienced in supporting data migration, cloud infrastructure, and enterprise technology initiatives following SDLC within Waterfall, Agile and SAFe environments. Skilled in sprint planning, risk and issue tracking, JIRA/Confluence-based project coordination, stakeholder communication, status reporting, dependency management, and supporting projects from initiation through go-live. Brings hands-on technical knowledge of SQL, Python, and cloud platforms, enabling effective collaboration with engineering and data teams.

KEY PROJECT DELIVERY HIGHLIGHTS

- **$500K program budget** managed end-to-end across 4 Agile releases with zero unplanned downtime (Sanofi Aventis)
- **200+ production pipelines** delivered across 4 programs supporting enterprise customer analytics (Lloyds Banking Group)
- **Zero data loss / 100% reconciliation** achieved leading a 5-domain ITSM migration program (San Joaquin Delta College)
- **8-source-system stakeholder coordination** driving 99.8% data integrity at cutover on a multi-vendor cloud migration (Sanofi Aventis)
- **6 Agile sprints** owned end-to-end — sprint planning, standups, retrospectives, burndown and risk reporting to leadership

CORE COMPETENCIES

Project & Program Management: *Agile, Scrum, SAFe, Waterfall, SDLC, Sprint Planning, Release Management, RAID/Risk & Issue Management*

Leadership & Communication: *Stakeholder Management, Vendor Coordination, Cross-functional Team Leadership, Executive & Status Reporting, Change Management*

Delivery Management: *Budget Management, Resource Planning, Scope Management, Data Migration Program Management, Quality Governance*

Tools: JIRA, Confluence, CloudWatch, Git/GitHub, Power BI, ***Confluence, Microsoft Project, Microsoft Planner, Smartsheet, Azure DevOps Boards, ServiceNow***
Technical Fluency (for cross-team credibility): *SQL, Python, Snowflake, Databricks, AWS, Apache Airflow, dbt, ETL/ELT*

PROFESSIONAL EXPERIENCE

Technical Project Manager — Jun 2023 – Present

Experis IT | Stockton, CA

- Led end-to-end ITSM data migration program from WebHealth to Freshservice across 5+ data domains, owning scope, timeline, and stakeholder communication to achieve zero data loss and 100% source-to-target reconciliation.
- Directed a cross-functional technical team building automated migration and validation pipelines, coordinating dependencies across data quality, engineering, and business stakeholder workstreams.
- Ran Agile ceremonies (sprint planning, daily standups, retrospectives) across 6 sprints; built CloudWatch and JIRA dashboards to track sprint burndown, migration issues, and delivery risk for leadership visibility.
- Partnered with business stakeholders to define data quality acceptance criteria, driving pre-go-live accuracy from baseline to 99%.

Technical Project Manager — Mar 2022 – Jun 2023

Cognizant Technology Solutions | Client: Sanofi Aventis | Remote

- Managed delivery of 15+ cloud-based data pipeline migration projects from 3 AWS environments into Sanofi's centralized infrastructure, completing 4 Agile releases on time and within a $500K budget.
- Led cross-system stakeholder coordination across 8 source-system owners, driving reconciliation and validation planning that achieved 99.8% data integrity at cutover.
- Directed governance and risk management processes — audit logging, lineage tracking, access control — and delivered executive-level pipeline status reporting; ensured zero unplanned downtime during migration.
- Drove process improvements (automated QC, exception handling, monitoring) that cut manual intervention 40% while maintaining 99%+ delivery SLA adherence.

Technical Lead / ETL Delivery – Data & Analytics Programs **Jun 2011 – Mar 2022**

Wipro Technologies

Client: Charles Schwab Bank | Dallas, TX

- Led delivery of scalable data pipelines processing 100M+ daily events from 7 sources, coordinating with cross-functional analytics stakeholders to support Schwab's digital platform reporting.
- Directed a workflow redesign initiative (sequential to parallel processing) that cut runtime 60% and infrastructure cost 25%, presenting outcomes to technical leadership.
- Owned quality and SLA governance across the program, improving SLA adherence from 85% to 99%+ through structured validation checkpoints.

Client: Capital One Bank | Richmond, VA

- Led the CARDS data migration program (Teradata to Snowflake), coordinating 6 source-system teams to re-platform 10M+ customer records and improve query performance by 35%.
- Managed source-to-target validation planning and parallel-run cutover coordination across teams, achieving 99.9% data accuracy at go-live.
- Directed reconciliation, audit reporting, and daily quality-scorecard governance for stakeholder and compliance visibility.

Client: ANZ Bank | Bengaluru, India

- Led the end-to-end BTWS data migration program, coordinating delivery of 5M+ records into 3 target systems with zero data loss at cutover.
- Managed cross-team validation and business-rule conversion (20+ rules into 50+ reusable ETL/dbt models), aligning delivery with CI/CD and peer-review standards.
- Owned pipeline scheduling, audit reporting, and risk mitigation governance across ST, SIT, UAT, and Production phases, ensuring zero critical post-go-live incidents.

Client: Lloyd's Banking Group | Bengaluru, India

- Delivered 200+ production pipelines across 4 programs supporting customer segmentation, behavioral analytics, and enterprise reporting for Lloyd's GOLD 360° Customer View program.
- Directed cross-team automation initiatives for source validation and schema governance, reducing manual effort by 30%.
- Managed reusable delivery templates, technical design documentation, and production support processes across the full project lifecycle.

CERTIFICATIONS

- Certified ScrumMaster (**CSM**) — Scrum Alliance
- Leadership Skills — Indian Institute of Management Ahmedabad (Credential ID 676C98NGGETE)
- Agile Project Management
- Agile Delivery

EDUCATION

BITS Pilani | Bangalore, India — Master of Technology in Software Engineering (M.Tech), Jun 2011 – Jun 2015

West Bengal University of Technology | Kolkata, India — Bachelor of Computer Science, Mar 2008 – Jun 2011

KEY ACHIEVEMENTS

- Star Performer, 2017, Wipro
- Delivery Excellence Award, 2021, Wipro
