NANDITA TALAPATRA

TECHNICAL PROJECT MANAGER | DATA & CLOUD DELIVERY

San Francisco, CA | +1 (973) 723-0647 | nanditatalapatra9@gmail.com
linkedin.com/in/ntalapatra | nandita-19.github.io

PROFESSIONAL SUMMARY

Certified ScrumMaster and Technical Project Manager with 12+ years of IT experience, including 5+ years leading cross-functional delivery in banking, life sciences, and enterprise technology. Manage data and cloud programs from planning through migration, validation, governance, and production cutover. Bring Agile/SAFe and Waterfall delivery expertise with working knowledge of SQL, Python, Snowflake, and AWS.

CORE COMPETENCIES

Delivery & Governance: Agile, Scrum, SAFe, Waterfall, SDLC, PDLC, project planning, scope and budget management, RAID, dependencies, change control, SIT/UAT, release management, production cutover

Stakeholders & Reporting: Cross-functional leadership, vendor coordination, resource planning, executive presentations, KPIs, governance committees, stakeholder communications

Data, Cloud & Tools: ETL/ELT, data migration, source-to-target mapping, data quality, reconciliation, SQL, Python, Snowflake, AWS, Airflow, dbt, Power BI, Jira, Confluence, Azure DevOps, MS Project, Smartsheet, ServiceNow, CloudWatch

PROFESSIONAL EXPERIENCE

MUFG — Apr 2025 - Present

Technical Project Manager | Remote

- Lead end-to-end banking technology and data modernization initiatives, managing scope, schedules, budget, risks, dependencies, and delivery milestones across Agile and Waterfall teams.
- Coordinate ETL pipelines and data migrations involving 200+ pipelines and 10M+ records, aligning data owners on validation, reconciliation, and production cutover readiness.
- Facilitate stakeholder reviews and governance meetings; maintain PDLC documentation, project plans, RAID logs, decision logs, and change-control records.
- Coordinate SIT/UAT, defect triage, and go-live acceptance; report 99.9% data accuracy at migration cutover.
- Prepare executive-facing KPI dashboards, project status updates, and steering materials using Jira, Confluence, Excel, and PowerPoint.

Experis IT — Jun 2023 - Dec 2023

Technical Project Manager | Client: San Joaquin Delta College | Stockton, CA

- Managed a five-domain ITSM migration, owning scope, schedule, stakeholder communications, and cutover readiness; achieved zero data loss and 100% source-to-target reconciliation.
- Coordinated engineering, data-quality, and business workstreams for automated migration and validation pipelines; tracked dependencies and issues over six Agile sprints.
- Established UAT acceptance criteria, pre-go-live controls, and Jira/CloudWatch reporting for migration defects and delivery risks; reported 99% migration data accuracy.

Cognizant Technology Solutions — Mar 2022 - Jun 2023

Technical Project Manager | Client: Sanofi Aventis | Remote

- Managed a $500K cloud data-migration program covering 15+ pipelines and three AWS environments; delivered four Agile releases on schedule.
- Coordinated eight source-system owners on mapping, source-to-target validation, reconciliation, and production cutover; achieved 99.8% data integrity.
- Led risk, audit, lineage, access-control, and status-reporting processes; maintained zero unplanned downtime and 99%+ SLA adherence while improving monitoring and reducing manual intervention by 40%.

Wipro Technologies **Jun 2011 - Mar 2022**

Technical Lead / ETL Delivery | Financial Services Data & Analytics Programs

Charles Schwab Bank | Enterprise Analytics

- Delivered analytics pipeline workstreams processing 100M+ daily digital events from seven sources, coordinating technology and analytics stakeholders to sustain production SLAs.
- Led a sequential-to-parallel processing redesign that reduced runtime by 60% and infrastructure costs by 25%; improved SLA adherence from 85% to 99%+.

Capital One Bank | CARDS Migration

- Led Teradata-to-Snowflake migration of 10M+ customer records, coordinating six source-system teams on data mapping, parallel-run testing, and production cutover; improved query performance by 35%.
- Oversaw reconciliation, audit reporting, and data-quality scorecards, achieving 99.9% accuracy at go-live.

ANZ Bank | Data Migration

- Coordinated migration of 5M+ records into three target systems through system testing, SIT, UAT, and production; achieved zero data loss and no critical post-go-live incidents.
- Managed conversion of 20+ business rules into 50+ reusable ETL/dbt models with peer review, scheduling, and validation controls.

Lloyds Banking Group | GOLD 360 Customer View

- Delivered 200+ production pipelines across four customer analytics programs supporting segmentation, behavior analysis, and enterprise reporting.
- Established reusable validation, schema governance, and operational handoff practices, reducing manual effort by 30%.

INDEPENDENT ENGINEERING PROJECTS

AML Transaction Monitoring (SQL, PostgreSQL, Apache Airflow): Built SQL monitoring for structuring and transaction velocity, with scheduled data-quality workflows. github.com/nanditatalapatra/AML_Transaction_Monitoring_System

E-commerce Data Pipeline (Python, PostgreSQL): Implemented ingestion, transformation, and validation across raw, public, and analytics schemas. Portfolio: nandita-19.github.io

CERTIFICATIONS & RECOGNITION

Certified ScrumMaster (CSM), Scrum Alliance | Leadership Skills, IIM Ahmedabad | Agile Project Management & Agile Delivery

Star Performer, Wipro (2017) | Delivery Excellence Award, Wipro (2021)

EDUCATION

M.Tech, Software Engineering - BITS Pilani | BS in Computer Science - West Bengal University of Technology
